EXPERIENCE

Improving - College Station, TX

Associate Consultant, Apr 2016-Present

As a technical consultant working for a variety of clients, made significant contributions to various web applications, including an application to keep track of job candidates, as well as a loan and insurance analysis system. Used and became familiar with many different kinds of technologies such as ASP.NET Web API, ASP.NET MVC, Entity Framework, Jenkins, AngularJS, Angular, Vue.js, ASP.NET Core, Azure, Visual Studio Team Services, Selenium, Protractor.NET, Twitter Bootstrap, Less, SASS, Typescript, MYSQL DB, and Raven DB.

CERTIFICATIONS

Professional Scrum Master I

Jul 2016-Present

Certified by [Scrum.org](https://www.scrum.org/).

PROJECTS

Management Operations Web App / Web Developer

May 2016-June 2018

Worked in a cross-functional scrum team to develop a management operations web application for a company which provides risk management solutions for agribusiness. Set up continuous delivery using Jenkin and Azure, later using Visual Studio Team Services, allowing my team to deploy multiple times per week. Interested in upgrading the tech stack, team looked into Vue.js, Angular and .NET core, and Docker. Using the Agile Scrum methodology together with test-driven development and technologies such as AngularJS, Vue.js, Angular, ASP.NET Web API, .NET Core, Jasmine, Jenkins, Azure, Visual Studio Team Services, Docker, Selenium, Protractor.NET, Twitter Bootstrap, and Entity Framework, my role was that of a full stack developer.

Interview Web App / Web Developer

Apr-May 2016

Configured, designed, and developed the initial iteration of a web application that would allow hiring staff to record and view candidate details online. Using technologies such as ASP.NET MVC, Highway Data, RavenDB, and Twitter Bootstrap, my role was that of a full stack developer.
