EXPERIENCE

Improving - College Station, TX

Associate Consultant, Apr 2016-Present

As a technical consultant working for a variety of clients, made significant contributions to various web applications, including an application to keep track of job candidates, as well as a loan and insurance analysis system. Used and became familiar with many different kinds of technologies such as ASP.NET Web API, ASP.NET MVC, Jenkins, AngularJS, Angular, Vue, ASP.NET Core, Selenium, Protractor.NET, Twitter Bootstrap, Less, SASS, Typescript, MYSQL DB, and Raven DB.

CERTIFICATIONS

Professional Scrum Master I

Jul 2016-Present Certified by Scrum.org.

PROJECTS

Management Operations Web App / Web Developer

Currently working in a cross-functional scrum team of six developers to develop a management operations web application for a company which provides risk management solutions for agribusiness. Set up continuous delivery using Jenkins allowing my team to deploy multiple times per week. Using the Agile Scrum methodology together with test-driven development and technologies such as Angular JS, ASP. NET Web API, Jasmine, Jenkins, Selenium, Protractor. NET, Twitter Bootstrap, and Highway Data, my role has been that of a full stack developer.

Interview Web App / Web Developer

Configured, designed, and developed the initial iteration of a web application that would allow hiring staff to record and view candidate details online. Using technologies such as ASP.NET MVC, Highway Data, RavenDB, and Twitter Bootstrap, my role was that of a full stack developer.

High Noon / Game Designer and Lead Developer

Feb 2016

Coordinated graphics and user interface design. Oversaw integration of user interface and game rules implementations in the Unity 3D game engine.
